

IN THE CLAIMS

Please amend the claims as follows:

1.-8. (Canceled)

9. (Currently Amended) A method of improving weight gain and growth, while decreasing morbidity and mortality in animals comprising:

administering a supplement to an animal post-weaning to an animal at any stage of the animal's life, through the animal's water source, said a supplement comprising the a water stable globulin concentrate of claim 1 comprising a water miscible and stable globulin concentrate the source of which is animal plasma, said globulin concentrate containing at least 15% by weight IgG.

10. (Original) A method according to claim 9 wherein the supplement comprises at least 15% IgG.

11. (Original) A method according to claim 9 wherein the supplement is administered to an animal selected from the group consisting of a pig, a cow, and a chicken.

12. (Original) A method according to claim 11 wherein the supplement is administered to a pig.

13. (Original) A method according to claim 12 wherein the pig is underweight.

14. (Original) A method according to claim 9 wherein the water stable globulin concentrate is dispersed in the water in a concentration of from about 0.375 to about 3.0% by weight.

15. (Original) A method according to claim 14 wherein the concentration of IgG in the water is from about 0.1-0.75% by weight.

-
16. (Original) A method according to claim 9 wherein the globulin concentrate is administered in a dose of 0.5 g immunoglobulin/hd/day or more.
17. (Original) A method according to claim 9 wherein the globulin concentrate is administered with one or more additives or nutrients selected from the group consisting of carbohydrates, vitamins, and minerals.
18. (Original) A method according to claim 17 wherein the additives are water soluble.
19. (Canceled)
20. (Currently Amended) A method according to claim ~~19~~ 9 wherein the globulin concentrate is administered to the animal by placing it in the animal's water system via a stock solution and a liquid dispenser.
21. (Currently Amended) A method of improving weight gain and growth, while decreasing morbidity and mortality in pigs comprising:
- ~~administering a supplement to a pig post-weaning to a pig at any stage of the pig's life,~~
through the pig's water source, ~~said a~~ a supplement comprising ~~the a~~ a water stable globulin concentrate ~~of claim 1, comprising a water miscible and stable globulin concentrate the source of which is animal plasma, said globulin concentrate comprising at least 15% IgG and further providing that said supplement comprises at least 15% IgG.~~
